Friday Night Respite
A while ago Neighborhood Church in Redding launched Friday Night Kids and Teens respite night. The first Friday of every month, parents with kids with special needs can drop off ALL of their kids for a few hours of much needed time to refresh and reconnect.

Get more info from their website.

Training Calendar
Every month we offer many trainings to empower you! From IEP Preparation to Behavior Tools, check out our calendar to see what trainings are offered at what dates and times. Then RSVP and arm yourself with knowledge!

In-Person or Online
RFENC now offers most of our trainings simultaneously via webinar and in-person. So if you'd like to attend, but cannot make it to our physical building, just register online and join us remotely! On the other hand, if you can make it in-person you may find the face-to-face training and interactions more gratifying.

Also, remember to check our online events calendar periodically to see if we've added trainings. The list above is not necessarily all that we'll be offering this month. Our calendar also lists support groups, play groups, ASL classes, etc. so check it out.

If you want more information about our trainings the details are available on our online events calendar. Once on our calendar just click the title of a training to read the description.
