RE: COVID-19 Vaccination

Dear Respite Care Providers;

We have been notified that Respite Care Providers have been approved to receive the COVID-19 vaccine. This vaccine is voluntary and is not a requirement to continue work for Rowell Family Empowerment.

To make an appointment or to get additional information on where to receive the vaccine, please go to shastaready.org. Once on their website, click the Vaccination button. The Vaccination page will give you the information needed to receive the vaccine.

Respite Care Providers are considered In Home Supportive Service providers. Complete the steps required for the site you choose to go to. On the day of your vaccine, you will need to bring the forms you filled out on shastaready.org, photo identification, and this letter stating that you are an In Home Care worker.

Please know that at this time, the vaccine is only available for In Home Care workers. This letter is not to be duplicated or reproduced.

If you have any questions about the vaccine, please contact Shasta County Public Health or your Healthcare Provider.

Sincerely,

Kristen Gibson
